

Thank you for your prayers!

We are safely home from Nicaragua after a great time with the Hernandez family: Levys, Bonnie, Alyssa & Ashley. God uses them in a mighty way to oversee both *Latin America Childcare* and *Convoy of Hope*. We videotaped 2 food distributions. Working through local churches, hundreds of food bags were given out, each held 10 meals.

Barb videos Alyssa and Levys handing out Convoy of Hope food packages in rural village.

During our second week in Nicaragua a team from Newbreak Church in San Diego joined Levys and Bonnie to paint and minister in the LACC school in the city of Diriamba. Several students were sponsored by team members.

Levys with the Newbreak Team at a Diriamba church service

We definitely felt a spiritual battle this trip (again, thanks for praying). Right before we left, I (Mac) pulled a muscle in my back, I did not look forward to hours on airplanes. Praise God, yours prayers made a difference! I was fine on the planes.

The spiritual battle continued our whole stay. All but one of the Hernandez family got sick, then Barb got sick.

Mac videos an A/G Presbyter, at the computer lab in a Latin America ChildCare school.

The evening before we left, as we recorded closing segments with Levys & Bonnie, I got light headed. We all prayed then I skipped dinner to nap. About two hours later I felt well enough to work. Working all night I finished the English version of the video. Unfortunately I was not as alert as usual while I edited & then reviewed the video. I did not catch that Alyssa's name was misspelled, a mistake I thought I had fixed earlier.

The next morning after several copies of the DVD were made, we showed the finished DVD to Levys and Bonnie. They caught the spelling mistake. By then it was time to leave for the airport, too late to fix the error and make different copies of the DVD.

Usually we finish the DVDs on the mission field. But this time we had to fix the spelling mistake and edit the Spanish version back in Kingman.

God Bless,
Mac & Barb

Please Pray
