

Merry Christmas and Happy New Year

You came into the world, right into our neighborhood, in a human body. You are our living Nativity.

Like the apostles, You give us the privilege of seeing Your glory.

When You gave and loved, You demonstrated how to be like our Father, who through the Nativity gave You as a generous gift to the world.

In this year's *The Chosen Christmas Special*, Matt Maher said, "*... the nativity isn't a piece of porcelain that can be broken, that you have to keep on the shelf.*"

It's a very really encounter with God, that He wants you to roll up your sleeves and get down into the middle of it."

Help us truly show Your unfailing love and faithfulness through our daily encounters with others.

All Glory to our Holy ABBA who is the Creator Extraordinaire!
